

**Fill Level Sensor**

- Accurate measurement
- Remote connectivity
- 24x7 reporting

**Solar or Electrical Powered Compactor**

For outdoor and indoor deployment

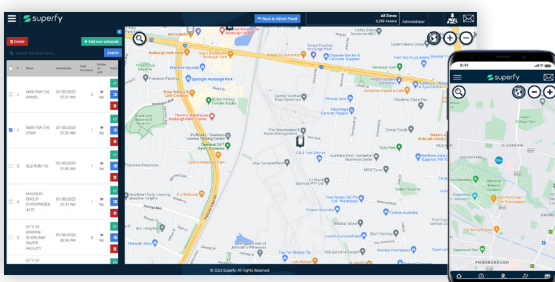

**Smart Compactor**

- All types of waste material
- Range of types & sizes
- Sealed, non-touch unit
- Standard internal wheelie bin or liner

**Superfy Platform and App**

- dynamically track your assets
- optimize collection routes
- get real-time analytics

# Superfy BriteBin Smart Compactor Range

## Saving time and money with smart waste and recycling management

The **Superfy BriteBin Smart Compactor Range** are award winning solar or electrically powered compacting bins for both outdoor and indoor use. They are the perfect solution for managing general and recycling waste across towns and cities. Combined with the **Superfy Platform and App** enables councils, waste and recycling collectors to monitor in real-time the fill levels across their entire fleet of smart bins.

### Key Benefits

- Reduces carbon emissions
- Lowers operations and collections costs by 60%
- Helps create a cleaner environment
- Low running costs
- Eliminates single use plastic bin liners
- Creates additional waste collection efficiencies

# Superfy BriteBin Smart Compactor Range
