

Superfy S101 Smart Container

Saving time and money with smart waste and recycling management

The **Superfy S101 Smart Containers** monitor and report on fill levels in real-time to optimise material collection and maintenance of the bin and surrounding environment.

Each smart bin is fitted with a **Fill Level Sensor** and access to the **Superfy Platform and App**. The dual optical sensor implementation provides accurate distance and fill level sensing capability. The cloud based platform and mobile app uses this information to enhance the monitoring, collection and transport of waste and recycling materials.

Ideal for smart cities, commercial waste and recycling collectors, construction sites, estates and parks, campuses and shopping malls.

Superfy Platform and App

- dynamically track your assets
- optimize collection routes
- get real-time analytics

Fill Level Sensor

- accurate measurement
- remote connectivity
- 24x7 reporting

Smart Container

- all types of waste material
- range of types & sizes

Optional waste openings and colours.

Enclosure hides wheeled bin containers with the smallest footprint.

Key Benefits

- Accurate and real-time fill-level measurement
- Optimized route collection app
- Real-time maintenance tracking
- Detailed analytics for operational reporting

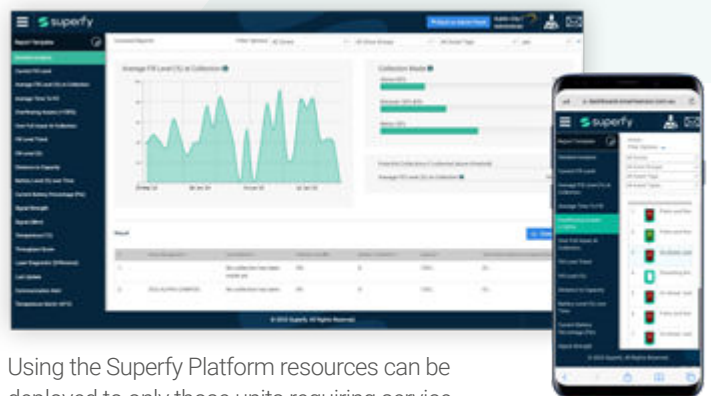

Superfy S101 Smart Container

Saving time and money with smart waste and recycling management

TECHNICAL SPECIFICATIONS

Dimensions	624 x 628 x 1345 mm (25 x 25 x 60 in)
Capacity	240 L
Colour	Grey Ral 7024 (standard)
Optional Additions	<ul style="list-style-type: none"> • Bespoke Stickers / Partial wrap • Aperture Dimension and Shape (Rectangular / Circular) • Ashtray (Integrated / External) • Dog Waste Tray / Dog Waste Bag Dispenser • Custom Colour (Minimum order required)

Using the Superfy Platform resources can be deployed to only those units requiring service, creating efficiencies and cost savings.

Superfy Smart Containers take real-time fill-level readings.

Once full, the Superfy Smart Container generates an alert to the Superfy Platform to notify that the bin is ready for collection.
